

# Diocesan User Roles

03/11/2025 12:03 pm CDT

There are three types of diocesan users in Catholic Social Media, each with different permissions within the diocesan subscription. Below is a full list of each type of user and the permissions that user has.

- **Diocesan Owner(s)**
    - Full rights to create and distribute content to all parishes associated with the diocesan account
    - Full rights to create and distribute resources to all parishes associated with the diocesan account
    - Full rights to create content tags associated with posts
    - Full rights to create content tags associated with resources
    - Full rights to create distribution groups
    - Full rights to create, edit, delete accounts and users at the diocesan level
    - Full rights to create, edit, delete accounts and users at the parish level
    - Full rights to diocesan analytics pages
    - Full rights to shadow parish accounts
  - **Diocesan Admin(s)**
    - Full rights to create and distribute content to all parishes associated with the diocesan account
    - Full rights to create and distribute resources to all parishes associated with the diocesan account
    - Full rights to create content tags associated with posts
    - Full rights to create content tags associated with resources
    - Full rights to create distribution groups
    - Partial rights to create, edit, delete accounts and users at the diocesan level: may only do so for diocesan standard users
