

How to Create a Multi-Image Post for Third-Party Content Creators

11/14/2025 11:40 am CST

You can now **create multi-image posts** in Catholic Social Media. This feature helps **third-party content creators** share visually rich campaigns and tell stronger stories through multiple images in a single post.

Your browser does not support HTML5 video.

Creating a Multi-Image Post

1. Click **Create Post** from the Planner or Calendar View.
2. In the upload box, you can:
 - a. Click to upload one image at a time.
 - b. Drag and drop multiple images directly from your folder.
3. To upload in bulk, select all images within a folder and upload them together.
4. Images will upload in the same order they appear in your folder. If you desire a specific sequence, upload them individually in your preferred order.

How to Preview and Manage Images

- After uploading, preview all images in the scrolling preview window.
- Hover over an image and click the trash icon to remove it.
- Confirm the order and visual flow before publishing.
- Add your caption, notes, and scheduling preferences as usual.

Best Practices

- Use multi-image posts to showcase campaigns, products, or event photo sets.
- Upload cohesive visuals that tell a clear story when viewed together.
- Maintain consistent branding and tone across all images.
- Review the final preview before publishing to ensure your visuals align with your message.
- Limit to 10 images for Facebook and Instagram, and 4 for Twitter.
